8. The Clan Hotel

Steeped in the history of clan associations, The Clan Hotel is inspired by the bustling Cross Street in the 1800s. From shophouses and boats, it's transformed into an entertainment scene with towering skyscrapers. Establishing a place for kinship, The Clan Hotel aims to bring individuals together with its modern brand of hospitality. And, of course, the stunning rooms. Snag yourself a bath bomb so that you can make full use of the bathtub.
